

COVID-19 Safety Plan for Certified Day Program Reopening

Agency Legal Name	Catholic Charities of Staten Island	
Agency Address	6581 Hylan Blvd, Staten Island, NY 10309	
Day Program Type	<input checked="" type="checkbox"/> Certified Site <input type="checkbox"/> Community, without Walls	<input checked="" type="checkbox"/> Day Habilitation <input type="checkbox"/> Prevocational <input type="checkbox"/> Day Treatment <input type="checkbox"/> Respite <input type="checkbox"/> Sheltered Workshop
Operating Certificate Number	79430438	
Site Address (certified sites only)	6581 Hylan Blvd, Staten Island, NY 10309	
Certified Capacity (certified sites only)	40	
Primary Contact Name	Claire Atalla	
Primary Contact Email and phone	Claire Atalla catalla@cc-si.org/ 718-317-2825	

The program's Safety Plan must describe procedures to operate the certified day program site or deliver day program service in accordance with the guidance document, Interim Guidance Regarding the Reopening of Day Services Certified by the Office for People With Developmental Disabilities. This document provides the outline to utilize for development of the Safety Plan (or future revision).

Some requirements may not be applicable to community-based services.

Please submit the written safety plan for each program to OPWDD prior to the reopening at quality@opwdd.ny.gov. In addition, for each safety plan, a completed Day Program Site Attestation must also be submitted. OPWDD will maintain copies of the plans for our records. OPWDD will not be providing approvals of agency plans.

Certified Sites must also maintain a copy of the program's Safety Plan on premises available to facility staff, OPWDD and local health authorities upon request. Community day program services (non-site based, without walls) must also make a copy of the Safety Plan available upon request.

SAFETY PLAN COMPONENTS

NOTE: Guidance bullets below are not a substitute for provider review and adherence to content of *Interim Guidance Regarding the Reopening of Day Services Certified by the Office for People With Developmental Disabilities*

Signage – applies to certified sites and other locations controlled by the provider

- Ensure program building entrances have signs that alert that non-essential visitors are not allowed.
- Ensure signs are posted throughout the program building to provide instruction on the critical COVID-19 transmission prevention and containment activities identified in the companion document *Interim Guidance Regarding the Reopening of Day Services Certified by the Office for People With Developmental Disabilities*.

Identify how you will ensure the above and any related strategies:

Directors will make sure all signs are visible to all participants, employees and anyone else trying to access the building. Directors will make sure all signs are hung and are maintained in the facility.

A. Entrance to Site Based Programs

Pre-Entry/Pre-Participation Screening:

- Screen all individuals, staff, and essential visitors prior to entry into the day program site and/or participation in services/service delivery:
 - per infection control standards for protection of screener and screened person,
 - to include temperature check and required questions on exposure and COVID-19 Symptoms, per NYS DOH and OPWDD guidance documents.
- Maintain daily documentation of all screening of individuals, staff and visitors in compliance with OPWDD and NYS guidance and policy.

Response to Signs and Symptoms and Departure:

- Safe management of any individual, staff or visitor who fails initial/pre-program screening or is exhibiting signs or symptoms during service delivery, to include:
 - Facilitating departure as soon as possible, and
 - Safely manage separation from people not exhibiting symptoms, until they depart.
- Ensure instruction is provided to any individual or staff sent home due to symptoms to contact their health care provider and written information on healthcare and testing resources.
- Ensure the day program immediately notifies the local health department and OPWDD about the suspected case.

Participation and Return to Program/Service:

- Ensure staff members know to report and how to report positive COVID-19 test results, exposure/possible exposure, and signs and symptoms to their supervisor.
- Ensure individuals do not participate in day services while they or a member of their household or certified residence is being quarantined or isolated.
- Maintain medical documentation allowing an individual or staff member who was COVID-19 positive to return to program site/services.
- Ensure any return of an individual or staff to programs/services occurs only in adherence to OPWDD and NYS DOH guidance regarding quarantine periods and fever free durations.

Identify how you will ensure the above and any related strategies:

Employees and individuals in the program will have a daily health screening including temperature checks and covid 19 questionnaire, given by supervisory staff daily, before entering the building. This will be documented in a daily log book. If an employee or individual has a fever or answers "yes" to any of the questions on the Covid 19 questionnarire upon being screened at the entrance of the program site, they will not be allowed into program and have to return home. If an individual displays symptoms during service delivery, they will be immediatley separated from all other participants in the program and parent/guardian will be called for immediate pick up. If an employee starts dispalying symptoms during service delivery, they will be sent home immediately. If an employee

B. Social Distancing Requirements:

Ensure effective practices to facilitate social distancing when distancing is not possible, including the following:

- Reduction of total number of individuals served at one time, in order to reduce congestion and facilitate easier social distancing;
- Plans to maintain no more than 50% occupancy in small/confined spaces within a program, such as a staff break room;
- Potential use of physical barriers within site-based spaces;
- Planned use, capacity and arrangement of furniture and/or work equipment in program rooms, workspaces and meal and seating areas to allow for social distancing of at least six feet apart in all directions (i.e. 36 square feet) and limit density. (Note an individual's needs may require individual to staff distance to be less than six feet);
- Use of signage and floor markers/distance markers denoting spaces of six feet throughout program area spaces, common spaces, waiting areas, entry, exits and other areas of travel;
- Facilitate one directional foot traffic where necessary in narrow spaces, using tape or signs with arrows;
- Install physical barriers, as appropriate, especially when physical distancing is not feasible between program/workspaces;
- Support and education of individuals to learn physical distancing/use of markers, patterns of movement, and other program strategies;
- Maintain a staffing plan to prevent employees who should need to "float" between different rooms or different groups of individuals, unless such rotation is necessary to safely support individuals due to unforeseen circumstances (e.g. staff absence).

- Provide adequate space and operational practices (e.g. staggered break times) for staff to adhere to social distancing while completing independent tasks (i.e. paperwork) and when taking breaks (i.e. eating or smoking).

Identify how you will ensure the above and any related strategies:

Our program currently has two sites. We will have no more than 15 participants at each site. Services will also be offered remotely to minimize the amount of physical attendance. Staff will be wearing mask at all times during program hours. If an individual's needs require staff to be less than 6 ft away, staff will wear appropriate PPE materials, such as gloves, masks and face shields. Each individual will have their own materials in a bag inside their cubby. Each cubby will be distanced from each other and have additional markers to promote and ensure social distancing. Added tables will be provided to allow up to 3 individuals per table. There will be one individual sitting in the middle of the table and two individuals sitting at each end. There will be no rotation of staff. Staff and

C. Gatherings in Enclosed Spaces

- Modifications to day program/service hours as needed, to allow blocks of service provision while maintaining reduced capacity and group size.
- Planned group size, which will be limited to no more than fifteen (15) individuals who receive services. The restriction on group size does not include employees/staff.
- Ensure the group (≤ 15) of individuals receiving services and staff working with them are as static as possible.
- Ensure that different stable groups individuals and staff, have no or minimal contact with one another and do not utilize common spaces at the same time, to the greatest extent possible.
- Stagger staff and/or individual meal and break times to maintain social distancing.
- Adhere to social/physical distancing practices identified in the safety plan.
- Prohibit shared food and beverages and buffet style dining.
- Require that food brought from home must require limited preparation (i.e. heating in microwave) during day services and be packed appropriately.
- Ensure reusable food utensils and storage containers are washed in the dishwasher on the hottest wash and dry setting.

Identify how you will ensure the above and any related strategies:

The program has two sites that will be able to safely provide services for no more than 15 individuals in each building site. Individuals that also want to work on services remotely, will still be able to do so, to stagger attendance. All individuals and staff entering and leaving the building will do so at staggered times. Individuals will be provided with snacks and meals from home, with disposable utensils. Staff and individuals will be placed in small groups and staff will only be allowed to work with the individuals in their designated area for the day. Any common areas such as restrooms, computer rooms or coat rooms, will only be allowed to have 2 people at a time when in use.

D. Day Program Schedules and Activities

- Modifications to day program/service hours as needed, to allow blocks of service provision while maintaining reduced capacity and group size.

- Focus on activities with little or no physical contact and which do not rely on shared equipment, to the extent possible.
- Schedule individual's activities to reduce density and allow for social distancing.

Identify how you will ensure the above and any related strategies:

Any use of shared objects such as computers, games, exercise equipments and art supplies will be closely monitored by staff and wiped down and disinfected before and after each use. Daily schedules will be made to ensure social distancing during activities.

E. Personal Protective Equipment:

- Ensure all staff wear an appropriate cloth or disposable face mask/covering that covers both the mouth and nose, at all times while providing services, consistent with all current Executive Orders and OPWDD guidelines (unless medically contraindicated / not tolerated).
- Ensure all essential visitors wear a face mask or covering, providing a facemask onsite at no cost, if visitors do not have their own which meets requirements.
- Support individuals receiving services to wear face coverings, as tolerated, whenever social distancing cannot be achieved.
- Maintain an adequate supply of required PPE on site (and available to staff for when needed for community-based services) to minimally include masks and gloves, and with gowns and face shields as needed.
- Train all staff on proper use of PPE including when necessary to use, donning, doffing, disposing and/or reusing and sanitizing when appropriate.
- Retain documentation of trainings in the employees' personnel files and per agency procedures.

Identify how you will ensure the above and any related strategies:

Signs will be posted at each entrance site stating that mask are required in order to enter the building. There will be a constant 3 month stock pile of PPE equipment on site for all staff and individuals. The Directors will ensure and monitor that all staff wear a face mask for the entire duration of their shift and dispose if it correctly. For individuals that need more hands on assistance such as help with toileting and or eating, face shields and gloves will be provided for staff to wear. Documents of all trainings will be kept in the employee training book as well as the staff's personal files.

F. Hygiene and Cleaning

Personal Hygiene to Reduce Transmission:

- Ensure strict adherence to hygiene requirements to reduce transmission as advised by NYS DOH and the CDC.
- Provide and maintain hand hygiene stations at each location to include:
 - Handwashing: soap, running warm water, and disposable paper towels.
 - Hand sanitizing: alcohol-based hand sanitizer containing at least 60% alcohol for areas where handwashing facilities may not be available or practical, and where the need for frequent hand sanitizing is expected;
- Train staff to wash their hands frequently with soap and water for at least 20 seconds using techniques per NYS DOH and CDC guidance, including the conditions that require handwashing.
- Support individuals to wash their hands frequently/when needed, with soap and water, for at least 20 seconds using appropriate techniques as tolerated.
- Encourage and facilitate use of hand sanitizers by staff and individuals upon arrival to and departure from program and through the day, providing supervision/support of use by individuals as needed.
- Address any individualized needs affecting the unsupervised availability of hand sanitizer.

Cleaning and Disinfection of Environment, Equipment and Supplies:

- Strictly adhere to sanitation requirements as advised by NYS DOH guidance documents.
- Implement the following minimum standards regarding cleaning and sanitizing:
 - Frequent cleaning and rigorous disinfection of high-risk areas/high touch surfaces;
 - Use of only EPA registered products for disinfecting non-porous surfaces;
 - Adhere to proper dwell times for all cleaners, sanitizers and disinfectants per manufacturer recommendations as indicated on the product label; and
 - Ensure adequate ventilation to prevent inhaling toxic fumes.
 - Maintain site cleaning logs indicating the date, time, and scope of cleaning.
 - Keep cleaning products, sanitizers and disinfectants secure and out of reach of individuals who may misuse;
 - Safely and immediately discard used gloves, paper towels or other disposable items after sanitizing or disinfecting, tied in a trash bag and removed from the environment.
 - Clean and disinfect all areas and equipment used by a person exhibiting symptoms upon their departure from the area and prior to use of the area or equipment by other individuals or staff.
 - PPE use and hand hygiene when cleaning and disinfecting causes safety hazards.
 - Provide ventilation with outside air safely and when possible.
- Limit use of shared objects/equipment. Ensure shared items are cleaned and/or sanitized after each use. Require hand hygiene before/after contact and glove use when feasible.
- Prohibit use of items/objects that cannot be cleaned and sanitized (i.e. soft object, cloth placemats, etc.) unless clinically required.
- Prohibit bringing personal items from home, except when clinically necessary, then have a plan for regular cleaning and disinfection including immediately prior to departure.

Identify how you will ensure the above and any related strategies:

Upon arrival staff and individuals will have to wash their hands. Sinks are located in the 2 bathroom areas and the kitchen. We have a hand sanitizer station as soon as you walk in by the door. Hand sanitizer is also located in each room. Staff will closely monitor throughout the day that individuals are washing their hands thoroughly and frequently. After using shared objects such as games, computers, i-pads and arts and crafts, they will be wiped down after each use by staff. Tables and counters will be washed down after each use with proper disinfecting spray. Our housekeeper and staff will clean high transit areas (restrooms, door knobs) frequently throughout the day. Each child will have their own personally cubby to keep extra clothes and supplies in. All daily cleanings will

G. Transportation

Ensure that the following measures are implemented for the transport of individuals to/from day services to reduce COVID-19 transmission risk, when providing or contracting for transportation:

- Ensure only individuals and staff from the same facility will be transported together; preventing individuals or staff from other residences to be intermingled whenever possible;
- Reduce capacity on buses, vans, and other vehicles to 50% of total capacity;
- As possible, stagger arrival and departure times to reduce entry and exit density.
- To the extent possible, restrict close contact of individuals and staff by not sitting near each other or the driver.
- If there are multiple doors in a bus or van, utilize one-way entering and exiting. Provide instruction for individuals to exit the vehicle one at a time and wait for driver or staff instruction before doing so.;
- Ensure staff and the driver always wear face coverings in the vehicle. Ensure staff who cannot medically tolerate the use of a face covering are not assigned to transport individuals.
- To the extent they can medically tolerate one, support individuals to wear masks in vehicles.
- After each trip is completed, clean and disinfect the interior of the vehicle before additional individuals are transported; and
- Where appropriate and safe, roll windows down to permit air flow.

Identify how you will ensure the above and any related strategies:

Individuals in the Supplemental Day Habilitation Program are transported to and from program by private transportation provide by a parent, guardian or public school bus. Staff will monitor staggered times and 6ft apart social distancing when individuals are arriving to program.

H. Tracing and Tracking

- Notify the local health department and OPWDD immediately upon being informed of any positive COVID-19 test result by an individual or staff at their site.
- If a staff or visitor test positive, procedures for day service cooperation with the local health department to trace all contacts in the workplace and notify the health department of all staff, individuals and visitors who entered the facility dating back to 48 hours before the positive person began experiencing COVID-19 symptoms or tested positive, maintaining confidentiality as required by federal and state law and regulations.

Identify how you will ensure the above and any related strategies:

A daily log book including a list of every person that entered the building will be safely stored in the office to protect everyone's privacy. Should someone test positive staff will refer to that log book and notify everyone in attendance that day. The Medicaid Compliance office will be made aware of the positive case and report accordingly to DOH and OPWDD.

ADDITIONAL SAFETY PLAN MEASURES:

Please use this space to provide additional details about your program's Safety Plan, if appropriate.

To limit the number of visitors entering the program and to further maintain social distancing, staff will walk individuals out to their parents car at time of pickup and drop off.
